RESPONSIBILITIES

Chris is a Consultant at NJL Consulting LLP and responsible for the management and coordination of Environmental Impact Assessments (EIA) as well as providing advice on environmental related planning matters.

EMPLOYMENT TRACK RECORD

Chris joined the NJL Sustainability team in October 2009.

Prior to joining NJL, Chris was employed with Atkins for over five years where he worked as a GIS Consultant on a range of environmental, planning and socio-economic projects as well as large scale transport infrastructure projects.

PROFESSIONAL EXPERIENCE

Chris has an in-depth knowledge of Environmental Impact Assessments (EIA's) as well as advising on environmental planning matters and sustainable development.

He has UK-wide experience of:

- Project managing and coordinating complex EIA's for mixed-use schemes
- Production of Environmental Statements in support of planning applications with emphasis on technical quality, concise approach and good presentation
- Managing technical project teams for the submission of planning applications

Chris also has extensive knowledge of the procurement, management, analysis and representation of geographical information.
